## PROFILE

Data-driven healthcare professional with a Master's in Health Informatics and a foundation in data analytics, informatics, and cybersecurity. Currently a Medical Release Specialist at Atrium Health, adept at managing medical records across legacy systems while ensuring compliance and efficiency. Proactively expanding expertise in Epic Cogito, Caboodle, Clarity. Passionate about integrating technology into healthcare operations and eager to leverage my data analytics and informatics expertise in a healthcare IS role focused on process improvement and system implementation.

## WORK EXPERIENCE

**Advocate Health** 2023 - PRESENT

Release Specialist - Archives

- Contribute to the meticulous retrieval of medical records from diverse legacy systems, showcasing proficiency in navigating and extracting information from various sources.
- Collaborate seamlessly with cross-functional teams to deliver archived records to patients stored outside current electronic medical record (EMR) systems while maintaining compliance with regulatory requirements.
- Leverage technical skills to streamline the validation process, increasing efficiency and accuracy.

**The Home Depot** 2018 - 2019

Garden Sales Associate

- Achieved successful sales performance, cross-selling over 400 products to meet set quotas.
- Demonstrated strong team orientation, contributing to exceptional customer service within a fast-paced retail environment.

**Jimmy John's** 2018- 2018

Delivery Driver

- Demonstrated strong management skills, successfully reconciling end-of-shift cash from delivery sales.
- Effective task management, efficiently delivering multiple orders in a timely manner.
